Dear Harold:

Just a quick note. I enclose a Vanity Fair with a good hatchet job on our buddy Newt. Also an article onOJ and Oliver Stone. Somehow he is linking JFK's death to Nixon. Even I don't believe that one!

I also enclose the letters to the NYT Magazine section on Posner. I did think the one on Clay Bertrand was interesting.

Also, another oddity of nature, a paddlebill catfish. Not really a catfish, it is one of the oddest fish we have in the Ohio Valley.

I enclose an article for Jerry McKnight. On manatees. Another natural oddity.

I hope Lil is getting better. Tell her to hang in there! We shall feel better with the cooler fall weather.

Back to court, maybe I'll win one!

The article on Barbra Streisand is fascinating. Nobody like show biz!
